BENEFITS

IMPORTANT FEATURES TO KNOW

- Stainform handrails and balustrades meet and exceed relevant Australian standards.
- All handrails are premeasured, prefabricated and prefinished meaning installation is quick with minimal site presence.
- Connections between parts are finished joints in preference to visible welds.
- Our handrail systems and individual components are largely interchangeable, allowing specifiers to combine different materials and colours and link it to their preferred style.
- The more standard options you choose will increase lead times and costs.
- We have available budget friendly options which have been proven and engineered. .
- Pre-assembled baluster systems available.
- Our five* year design and manufacturing warranty means reduced risk
